- 4) Tents for Rent provides tents in two basic styles ... pole tents and frame tents. Because they're more economical, pole tents are our most popular style with tall, graceful peaks, providing an airy, spacious interior. Frame tents also have several distinct advantages. They have no interior poles and can be installed without driving stakes into the ground. Which style is right for your next event? Be sure to ask us when we come back on the line.
- 5) At Tents for Rent, we deliver exceptional service and durable tents of any size. In fact, some tents we carry are engineered to withstand 70 mile-per-hour sustained winds and 90 mile-per-hour gusts! No matter what size tent you rent from us, you'll have confidence and peace of mind with Tents for Rent.
- 6) We appreciate your patience and will be with you shortly.
